Our Stories

I'm Coco Ko from 5T

This was the first time I went to New Zealand. In this 14-day trip, I really learnt a lot. We stayed with the host family to explore New Zealanders' lifestyles. We had lessons with the local students to explore their learning atmosphere, and we went to different places to explore the unique culture of New Zealand.

For me, all the experiences are memorable. However, the most unforgettable activity must be skiing. I have never skied before. We spent the whole day on the mountain, and we just learnt how to ski for an hour. Then after lunch, I could ski! It was extremely unbelievable. In that morning, it was the first time I saw snow. But in the afternoon, we could ski up and down on the hill. That was so much fun! I knew that if there weren't my friends with me, I couldn't have done that! When we fell, we helped each other to get up. We encouraged each other when we faced problems.

The trip has taught me a lot. We learnt from each other, and the host families were very friendly. In the trip, we stayed in two families. When I was staying with them, they were just like my family. They cared about us very much.

The trip was utterly meaningful, and I hope I can go back to visit the friends I made there and try all the amazing experiences again.

I'm Rio Tsui from 2R

I won the championship of the 'Build Your World' Lego Building Competition. When I knew the result, I was very happy. The prize included a trip to Malaysia new Legoland, so my mother and I went there in the summer.

I went to Legoland on the second day of our trip. We met the model shop manager Mr. Stefan before I put my creative model into a box for display. Then, we had free time to enjoy the facilities there. The first game I played was 'The MINDSTORMS'. I used lego to build a robot for some missions. It was very fun. I spent some time in the Miniland too. There were a lot of small Lego buildings. They are all very beautiful and in miniature. After lunch, Mr Stefan brought us to the model shop. He taught us to build a mini figure.

On the third day, we arrived at the Legoland at 8am again. Mr Stefan brought us to the Miniland. He told us what he did in Legoland. He sometimes fixes the broken Lego parts of the Miniland and builds new Lego models. After that, we danced at the entrance to welcome the visitors.

I was very happy in these few days. I learnt more about Lego and I will pay more effort in Lego building to win the competitions ahead.

I'm TAKAYANAGI YOSHIHIRO from 4R

Last year, I joined the Spanish CCA every Friday. Spanish is really easy to me because there are five vowels in many of the words. The pronunciation is really easy. For example, televisión, plátano (banana), naranja (orange), etc.

Spanish is also widely spoken around the world. People in Spain and most of the countries in South America such as Mexico, Cuba, Colombia, Argentina, and it is the second most spoken language in the USA. Although the grammar in Spanish is a bit difficult for me, I am very glad to have learnt Spanish in our school! Thanks to the school for offering me such a good chance to learn another language!

I'm Susan Cheng from 5R

Last year, I joined a lot of school activities and it colored my school life. There are two things I remember the most. They are the drama festival and cheerleading. I joined the drama club for 4 years and last year is my last time to take part in the drama festival. It was a challenging job to be the director of the show that I had to lead the whole crew to produce a drama performance. I appreciate the effort of my teammates and I hope they will love drama as much as me after the performance.

Cheerleading made a good memory for me. In the past, I just heard about the cheerleading in other countries which is so cool and amazing. But I had no chance to do something like that. Fortunately, our school organized a cheerleading team. After I joined this team, I found that it was really a hard job. In cheerleading, teamwork is the most important thing ever. Everyone of us should be a team. We rely on everyone and do great performance. Also, I learned the importance of the cheer. It makes people feel energetic. During the competition, when we were performing, other competitors cheered for us. The atmosphere there was so great and it made me fall in love with it.

PARTICIPANT
19TH STUDENT LEADERS CONVENTION

I'm Facundo from Argentina

I have been in this school for two months so far. I really enjoy the campus life. I like the relationship between students and teachers. The subjects are all really cool. I like Visual Arts and Geography. I like all of my other electives, and I also have a really great time with my classmates and one of the other exchange students here, Jenny.

I'm Eling Shing from 6A

"A dream doesn't become reality through magic; it takes sweat, determination and hard work." Colin Powell said.

This quote makes me become more courageous to be the editor of Sparklazine last year. I have always been determined to become a professional news reporter. This dream has not changed a bit. This experience allowed me to get closer to my dream.

When producing the first issue, my team and I paid a lot of efforts on producing our own "product" which ranged from titling the magazine and deciding the theme to designing the typeset and distributing to our schoolmates. My team did it all by ourselves. It really beat our brains out. However, once we received the first issue, it just simply gave us the feel of giving birth with united effort. This kind of satisfaction and sense of achievement cannot be found elsewhere.

Honestly speaking, this had not been an easy task to deal with as it used up plenty of my leisure time to complete the typeset and decoration. Yet, I do not regret. It was my pleasure to work with my intelligent group mates - they brought me to see the brighter side when I was trapped with my difficulties. My group mates were all willing to scratch each other's back.

In this year, I cannot work with you guys as I have to prepare for my DSE. But, my heart and spirit will always be with you. Fingers crossed for the whole team!!

我是6T班的劉小芳

在參加第十五屆全港中小學普通話演講比賽的過程中，我獲益匪淺。因為我不僅欣賞到來自不同學校同學們的演出，也從評委、嘉賓的話語里得到很多寶貴的意見。所以，我把這次參賽的經歷看作是自我提升的機會，希望各位熱愛普通話的同學能珍惜這些機會，積極參與其中。

我是實習老師郭子俊

突然又已一年，我從羅中畢業快將六年了！這六年來我的身份及扮演的角色都改變了不少。而這一次回到羅中，我所扮演的是一名實習老師。

回來母校永遠都是快樂的，但這次經歷還帶有一點挑戰性。那些年，我們都是安靜的學生，如無意外均守口如瓶。面對老師的突擊，多數同學都會「耍太極」——左推右推。這些年，學生已經不同了！他們主動、精力旺盛而且富求知欲，相比起來我等真是望塵莫及！

在羅中，我們教學上有勤奮且多元化的教師團隊，設施上有配合廿一世紀多元學習模式的各類教室及設備，管理上有富經驗及遠見的管理人員，我相信羅中的發展定能百尺竿頭，更進一步。

A man in a dark suit and tie stands at a podium with a microphone, holding a small white card. He is smiling slightly. The background is a stage with a wooden wall and a red curtain.

I'm Mr. Crawford, an English Teacher

The next LTPSS musical has the working title 'Amor Vincit Omnia' (AVO). This is a Latin phrase meaning 'Love Conquers All'. Writing the script and choosing the songs took two years and was done by a small group of pupils in a special CCA.

AVO is a love story set in Shanghai and covers 40 years: it starts in 1988, goes back to 1948 and then returns to 1988 for the final scene. The dialogue is in English and Putonghua; most of the songs are also in English and Putonghua but Spanish and Cantonese have one song each.

Auditions were held in October and a provisional cast list was drawn up before the mid-term break - rehearsals will start soon. All being well, AVO will be staged in early July at an external venue - it will be a great show!

A close-up portrait of a young man with short brown hair, smiling broadly. He is wearing a light green polo shirt. The background is a plain light color with a yellow circle on the right.

I'm Mr. Schy, an English Teacher

Having only been working at LTPSS for a few weeks, I can already say that both the students and the curriculum at LTPSS are fantastic! Regarding the students, they are highly motivated, hard working, demonstrate a high level of responsibility as well as ownership in their schoolwork, and overall are a pleasure to teach. Without any textbooks or pre-made curricula, our school-based curriculum allows me to incorporate the full extent of my creativity into each of my lessons. I appreciate this because oftentimes teachers are required to follow a rigid curriculum, and in doing only have a limited ability to make their lessons interesting, engaging, relevant and authentic.
